BACKGROUND OF THE INVENTION

This application relates to compositions of aqueous oak bark extract, to synthetic compositions containing the key active ingredients of oak bark extract and to the use of such compositions in the treatment of skin cancer and other skin disorders.

Oak bark extract has been described in United States Patent No. 5,080,900 which is incorporated herein by reference, for use in the treatment of skin ulcers, particularly decubitus ulcers or bed sores. This material in a base of Whitfield's ointment has also been sold under the trade name Benzelok® for use in the treatment of minor skin irritations. The amount of oak bark extract in these materials was relatively low, however. For example, the
